Requirements Traceability Matrix — Helps for Kittens

Project: Help for Kittens · Format: лекція 7, Hillel IT School

№	Issue for development	Block of feature	Acceptance criteria	Priority	Test-case
1	**Issue №1Create virtual card**	Account tab	User can open 'Generating a new card' popup by clicking '+' button	**P1 High**	TC-01: Open popup
2		Account tab	User can close popup with X button	**P2 Medium**	TC-02: Close popup
3		Account tab	First name: only English letters, min 2 chars	**P1 High**	TC-03: First name valid (2 chars)
4		Account tab	First name: only English letters, max 20 chars	**P1 High**	TC-04: First name valid (20 chars)
5		Account tab	First name: error if less than 2 chars	**P1 High**	TC-05: First name too short
6		Account tab	First name: error if more than 20 chars	**P1 High**	TC-06: First name too long
7		Account tab	First name: error for non-English characters	**P1 High**	TC-07: First name non-English
8		Account tab	Last name: only English letters, min 2 chars	**P1 High**	TC-08: Last name valid (2 chars)
9		Account tab	Last name: only English letters, max 20 chars	**P1 High**	TC-09: Last name valid (20 chars)
10		Account tab	Last name: error if less than 2 chars	**P1 High**	TC-10: Last name too short
11		Account tab	Last name: error if more than 20 chars	**P1 High**	TC-11: Last name too long
12		Account tab	Last name: error for non-English characters	**P1 High**	TC-12: Last name non-English
13		Account tab	'Create a virtual card' button disabled by default	**P1 High**	TC-13: Button disabled by default
14		Account tab	'Create a virtual card' button enabled when both fields are valid	**P1 High**	TC-14: Button enabled with valid data
15	**Issue №2Card limit**	Account tab	User can add up to 5 cards successfully	**P0 Critical**	TC-15: Add up to 5 cards
16		Account tab	User cannot add a 6th card	**P0 Critical**	TC-16: Cannot add 6th card
17	**Issue №3Card management**	Card manipulation	User can open card replenishment popup	**P1 High**	TC-17: Open replenishment popup

№	Issue for development	Block of feature	Acceptance criteria	Priority	Test-case
18		Card manipulation	User can successfully top up card balance	**P0 Critical**	TC-18: Successful replenishment
19		Card manipulation	Replenishment field accepts only numbers	**P1 High**	TC-19: Only numbers in amount field
20		Card manipulation	Card balance can reach max 100000	**P1 High**	TC-20: Max balance 100000
21		Card manipulation	Error if replenishment exceeds max balance 100000	**P1 High**	TC-21: Error exceeding max balance
22		Card manipulation	Error if amount is 0	**P1 High**	TC-22: Amount more than 0
23		Card manipulation	Error if amount is negative	**P1 High**	TC-23: Negative amount not allowed
24		Card manipulation	'Add moneys' button disabled when field is empty	**P1 High**	TC-24: 'Add moneys' button disabled
25		Card manipulation	User can open card deletion popup	**P1 High**	TC-25: Delete card popup
26		Card manipulation	Card is deleted after confirmation	**P0 Critical**	TC-26: Card deleted after confirm
27		Card manipulation	Clicking card number copies it to clipboard	**P2 Medium**	TC-27: Copy card number
28	**Issue №4Donate payment**	Donate tab	Error when Cardholder's name is empty	**P1 High**	TC-28: Cardholder name required
29		Donate tab	Error when Card number is empty	**P1 High**	TC-29: Card number required
30		Donate tab	Error when Date of expiry is empty	**P1 High**	TC-30: Date of expiry required
31		Donate tab	Error when CVV is empty	**P1 High**	TC-31: CVV required
32		Donate tab	Error when Amount is empty	**P1 High**	TC-32: Amount required
33		Donate tab	'Agree with terms of service' must be checked	**P1 High**	TC-33: Terms of service required
34		Donate tab	Card number accepts exactly 16 digits	**P1 High**	TC-34: Card number valid 16 digits

№	Issue for development	Block of feature	Acceptance criteria	Priority	Test-case
35		Donate tab	Error if card number has less than 16 digits	**P1 High**	TC-35: Card number less than 16
36		Donate tab	Date of expiry accepts format MM/YY	**P1 High**	TC-36: Date format MM/YY valid
37		Donate tab	Error if date format is not MM/YY	**P1 High**	TC-37: Date format invalid
38		Donate tab	CVV accepts exactly 3 digits	**P1 High**	TC-38: CVV valid 3 digits
39		Donate tab	Error if CVV has less than 3 digits	**P1 High**	TC-39: CVV less than 3 digits
40		Donate tab	Error if donate amount is 0	**P1 High**	TC-40: Amount more than 0
41		Donate tab	Donate amount accepts valid positive value	**P2 Medium**	TC-41: Valid donate amount
42		Donate tab	Donate amount can be exactly 50000	**P1 High**	TC-42: Max donate amount 50000
43		Donate tab	Error if donate amount exceeds 50000	**P1 High**	TC-43: Amount exceeds 50000
44		Donate tab	'Confirm payment' button disabled by default	**P1 High**	TC-44: 'Confirm payment' disabled
45		Donate tab	Payment succeeds when all data matches card	**P0 Critical**	TC-45: Payment with matching data
46		Donate tab	Payment fails when card data does not match	**P0 Critical**	TC-46: Payment with wrong data
47		Donate tab	'Thank you' screen shown after successful payment	**P0 Critical**	TC-47: 'Thank you' screen shown
48		Donate tab	'Transaction failed' shown after failed payment	**P1 High**	TC-48: Failed transaction screen
49	**Issue №5General**	General	App displays Account and Donate tabs	**P1 High**	TC-49: Account and Donate tabs exist
50		General	App layout adapts to mobile screen	**P2 Medium**	TC-50: Mobile layout works

Всього: 5 Issues · 50 вимог · 50 тест-кейсів · P0 Critical: 7 · P1 High: 39 · P2 Medium: 4
